Key views and vistas

The settlement form and landscape allows for views across the Parish. These contribute to the strong sense of place. They include 'fixed' views from a certain point, and those which are 'kinetic' in nature, providing views along a public right of way. The impact of development on views should be minimised. Please tick the boxes below to indicate whether you think the view / vistas identified warrant being included in the Plan, or not.

Local Green Spaces

The Neighbourhood Plan proposes to designate 'Local Green Spaces' for protection from development. National Policy says these must be demonstrably special to the local community and hold a particular local significance because of its beauty, historic significance, recreational value, tranquillity or richness of its wildlife.

Please tick the boxes below to indicate which of the criteria, if any, are met by each of the proposed Local Green Space designations. Please note the Fletching Recreation Ground is subject to a separate policy.

	<i>Beauty</i>	<i>Historic significance</i>	<i>Recreational value</i>	<i>Tranquillity</i>	<i>Richness of wildlife</i>	<i>Does not meet any of the criteria</i>

Please add any comments here which help explain why you think the Local Green Spaces are important, or not.

Non-designated Heritage Assets

The Neighbourhood Plan identifies eleven 'non-designated heritage assets' in the Parish. These are buildings and structures of historic value and significance locally, which although not designated as Listed Buildings, should be treated sensitively, retained and enhanced.

Please tick the boxes below to indicate whether you think the buildings and structures identified warrant being included in the Plan as 'non-designated heritage assets', or not.

Wider projects and aspirations

The Neighbourhood Plan can identify wider infrastructure improvements that the community would like to see take place across the Parish, but which are not directly related to development. Projects identified so far relate to improving the network of public rights of way, introducing traffic management, and refurbishing the Pavilion at the Recreation Ground.

Please use this section to let us know if you have any ideas for infrastructure improvements in the Parish.
